NEWTON SHARMA

CYBERSECURITY GRADUATE | JUNIOR CYBERSECURITY / SECURITY INTERNSHIP

Brønshøj, Denmark | +45 5278 6198 | newton.sharma@gmail.com | LinkedIn: Newton Sharma

Cybersecurity Master's graduate with a prior background in web application development.

Professional Profile

Cyber Security graduate from Aalborg University Copenhagen with an academic foundation in network, software, web and cloud security. Master's work covered threat modelling, vulnerability assessment, penetration-testing concepts, IoT security, cryptography, privacy and secure software development. Previous professional experience in web application development provides familiarity with PHP, JavaScript, HTML, CSS and SQL. Seeking a junior cybersecurity or internship opportunity to develop practical security experience and contribute to security operations, assessment and secure development.

Cybersecurity Knowledge

Network Security • Software and Web Security • Threat Analysis and Modelling (STRIDE, LINDDUN) • Vulnerability Assessment • Penetration-Testing Concepts • Cloud Security • IoT Security • Cryptography and Encryption • Privacy and Data Protection • Secure Software Development • Computer Networks

Selected Academic Work

Master's Thesis: Evaluating Encryption Backdoors and Client-Side Scanning in Modern Data Access Frameworks

- Examined security and privacy trade-offs in encrypted cloud environments, including client-side scanning and key escrow.
- Applied threat-modelling approaches, including STRIDE and LINDDUN, to consider security threats and privacy risks.
- Explored relevant regulatory and technical considerations involving GDPR, encryption and data protection.

Professional Experience

Content Writer | Cubix Tech Pvt. Ltd.
Kathmandu, Nepal | 11 Sep 2023 – 31 Jul 2024

- Researched and produced web content, blog posts and articles for online audiences.
